2016 Annual Report

The Hance Family Foundation's mission is to bring an invaluable educational program to females of all ages. . . . Beautiful Me provides the necessary foundation for future success! Self-esteem can be taught by improving coping mechanisms, increasing insight, and building relationship skills.

We reach out to schools, communities, detention facilities and hospitals through our unique self-esteem curriculum which teaches, unites, and empowers the participants to live with confidence.

We affect change directly with each participant during group workshops/seminars and affect change indirectly in their home and community environments by empowering females to share the learned skills with other people in their lives.

We fundraise everyday to be able to offer Beautiful Me to females of all ages free of charge.

We are proud to announce 7,590 participants have gone through Beautiful Me in 2016. To date over 29,000 females participated in the Beautiful Me programs.

The following is an overview of the Hance Family Foundation's income and expenses for the fiscal year ended December 31, 2016.
